**The News.**

The wires were still out of order on Saturday, and we are therefore without much telegraphic news this morning.

Mrs. THURLOW WEED died at Albany on Saturday, after a lingering illness.

The steamer *Lady Elgin*, ashore on Lake Superior, it is thought will prove a total loss.

The remains of EX-President MONROE, were formally delivered to the Virginia Committee, at New York, on Saturday, for re interment in the State of his nativity. The remains were escorted to the steamer *Jamestown*, by the seventh regiment.

The propeller *North America*, employed in light house business, was totally destroyed by fire, on Lake St. Clair, on the night of the 1st. No lives lost.

The steamer *Porcupine* is waiting for the *Niagara*, with the Telegraph Cable, to pilot her in, when she arrives. No signs of the *Niagara* yet. Great anxiety exists about the success of this, the greatest enterprise of the age.

We have no information as to the condition of the New York Produce Market either on Friday or Saturday. Our Market was moderately active on Saturday without any change in prices.

The weather at the close of the week was warm, and promised fair to be hot on the Fourth.

THE CONGRESSIONAL CANVASS.—The *Badger State*, published at Portage City, disputes our statement that Lecompton, or Anti-Lecompton, DOUGLAS or BUCHANAN, is involved in the canvass for the Democratic nomination in that District, and says:

"We do not believe any of the rival candidates for the nomination are starting this test or ranging themselves under the "Buchanan or Douglas standards." If they are, whoever they may be, their friends will do well not to bring their names before the Convention."

We have only to say that within the last fortnight we have heard *two* of the most prominent Democratic candidates for the nomination in that District, openly and distinctly proclaim that there was not a ghost of a chance for any but an ANTI-LECOMPTON candidate, and that Senator DOUGLAS was their man for the next Presidency. We doubt whether they will be "ruled out" for either declaration.

MARQUETTE COUNTY SEAT.—The vote on the question of locating the County Seat of Marquette County, resulted in "no choice," no one place having a majority over all the others.—The Berlin *Courant* gives the following figures:

| | |
|---|---|
| Berlin City, | 1212 votes. |
| Princeton, | 803 " |
| Markesan, | 620 " |
| Dartford, | 352 " |

CONGRATULATORY.—The Green Bay *Advocate* (Dem.) congratulates the *News* on the returning reason manifested in its recent complimentary allusions to the "Little Giant."

**Destructive Conflagration—Loss $15,000.**

Yesterday morning, about half-past six o'clock, Mr. P. B. Lamb's planing mill, corner of Fulton and Jefferson streets, caught fire, and in a few moments the entire building was wrapped in flames. The fire spread rapidly south and west, and by the time the engines arrived, one quarter of the block was a sheet of flame.

Mr. Lamb's loss is $6,000, upon which he had no insurance. To the lumber yard adjoining the mill, Mr. H. M. Lewis lost $1,500 worth of lumber, upon which he had an insurance of $1,-100 in the "Home," of New York. The Galena and Chicago Union Railroad also lost $60 worth of lumber, and Mr. Walter Lull $160 worth.

Adjoining the yard on the south, were two two story frame buildings, 52, 60 and 68 Jefferson street, owned by D. L. Jacobus & Co., and occupied by them as a furniture warehouse.—Most of the furniture was saved, but the building was totally destroyed. A large quantity of hard lumber owned by this firm was burned. The large four story brick furniture factory, No 56 Jefferson street, owned and occupied by Messrs. Jacobus & Co., was on fire a number of times, and was saved with the greatest difficulty. It is considerably damaged by fire and water, as is also the machinery. This firm loses some $7,-500, against which there is an insurance of $4,500 in a Hartford and Philadelphia Company.

On the alley, in the rear of Messrs Jacobus & Co.'s premises, were some small shanties, occupied by families, which were burned.

Mr. Burk's flour and feed store was badly scorched, and his barn burned.

The buildings on the opposite sides of the streets were considerably scorched, and at one time there was great danger that the fire would cross the streets in both directions.

The whole loss was not far from $15,000.—*Chicago Press and Tribune, 1st Saturday.*

**Trial of Gen. Lane Concluded.**

SHAWNEE HOUSE, LEAVENWORTH CITY, June 29th, 1858.

*To the Editor of the Missouri Democrat:*

I have just conversed with gentlemen from Lawrence, and they inform me that the examination of Lane has been concluded, and though the decision of the court has not been made public, the impression is universal that their decision will be *justifiable homicide*.

NEW MAIL ARRANGEMENT.—We place at the head of our local columns this week, the notice of our Postmaster Mr. Gove, which exhibits quite a change in the postal and mail arrangements at the Ozaukee Office. Messrs. Davis & More, of Milwaukee, have made the contract for conveying the mail daily, between this place and Milwaukee. The contract for carrying by boat expired on the 30th ult. The present arrangement assures us a daily mail. The boat could not always be relied upon, therefore we consider the change a good one.—*Ozaukee Advertiser, July 3d.*

☞ J. Steiner, of Harrisburgh, Pa., proposes to cross the Atlantic in a balloon, 100 feet in diameter. He says in a letter to the *Telegraph*:

"I am satisfied in my own mind that with such an apparatus I could cross the Atlantic in 75 hours, and the whole cost would be not more than $20,000."

From the Washington *Union*, of Tuesday.

**The Old Hall of the House of Representatives—Curious Scene There.**

Notwithstanding the sacred memories which cluster around the old Hall of Representatives, the sanctity which it has obtained by reason of the great deeds accomplished within its walls, there was a scene witnessed there yesterday morning entirely unprecedented.

By ten o'clock at least one hundred persons were in the hall, a number of them ladies. They were of all ages, and though diligently searched for, the "Middle-aged Man" could not be found. Among the assemblage we recognized Judge Blanchford, of the Court of Claims. The interest manifested in the sale, the patience with which the spectators and the purchasers followed the auctioneer from desk to desk, and chair to chair, was worthy of imitation. The furniture was all of solid mahogany, and the prices, instead of being uncommonly low, exceeded the expectations of many who thought to procure great bargains. A considerable portion of it was damaged, and so great was the competition, where competition was least expected, that a single arm chair, with a writing accompaniment was knocked down at *ten dollars and a quarter*, instead of the five or six dollars that the purchaser made up his mind to give. These old chairs, many of them with the screws loose, brought an average of three dollars a piece, and the carpet was sold at eight cents a yard.

The opening and concealment of the auctioneer, Mr. Fisher—"terms cash, nothing delivered until paid for"—we feared would dampen the spirits of bidders, but so that worthy gentleman commenced with auditors, (congressional and-irons, mind you,) which were knocked down at a very low figure, confidence seemed to be perfectly restored, and from that time to the end of the sale there was no flagging, no hesitation in the bidding. The first of the desks of the old members sold was that occupied for so many years by Hon Joshua R. Giddings, of Ohio, who, until the last session of Congress, was remarkable for his persistent opposition to the institution of slavery and its extension. When the desk was put up, we looked around for black republicans, supposing that they would be eager to obtain the prize. After a moment's pause, one of them went "a dollar and a half," a second feebly cried out "a dollar seventy-five" whilst a third articulated "two dollars." It was here that we thought the bidding would cease, so long did the auctioneer dwell upon that word "two dollars—going, going, going;" but just as the word "gone" was struggling for utterance, a fourth gentleman bid "two-and-a-quarter," and the desk was sold.

The desk and chair occupied by Hon. John Quincy Adams brought $50. The bidding for this furniture was quite animated, and it was remarked by the by-standers that in Massachusetts it would command $600. The desks occupied by Col. Benton and Mr. McDuffie, of South Carolina, brought $6,25 apiece; the desks occupied by Col. Brooks, run up to $9, and that used by Governor Wise sold for $7. Upon the remainder of the furniture the bidding was very brisk, and the competition became very great. We understand that the total sales amounted to between two and three thousand dollars.

From the Mark Lane Express, June 14.

**The British Corn Trade.**

A second week's hot weather, with occasional thunder showers, has forced on the crops rapidly, and brought a good deal of Wheat into ear in the southern counties, which is doing well—No more rain is, however, wanted for this grain, and storms would make its position critical; but with fine weather an early gathering is certain. All spring Corn is greatly benefitted, and there is scarcely finer prospect for Beans and Peas.—Some Hay has been cut, but we think prematurely, unless it be to insure a second crop. Potatoes look fine; the fly complained of among Turnips, the storms may have reduced. Other roots are going on well; there will be a heavy swath of Clover. The markets, as a consequence, have all been dull and rather lower, notwithstanding the moderate rates; and with fair arrivals of foreign, unless something unfavorable occur, there is no immediate prospect of much improvement. Still, fine old wheat must be wanted in considerable quantities, and last year's produce is not likely to be surpassed, even should the present brilliant weather be prolonged up to harvest. In Northern Europe the prospects have greatly improved; and the Baltic markets have been dull. In France there is much apprehension from the tropical heat, and some speculation has commenced at rather high prices. The different provinces of Spain vary. Estremadura and Andalusia were promising; but the coast north, as well as west, and the Castiles, have suffered from drouth, and the free permission of imports is extended to Dec. 31. Italy it would seem, will have little to spare; and the harvest in Algeria, which is now general, will be much below 1857, especially in hard Wheat—Oats being very short. Prices in these latter countries have therefore advanced, while in America there is some reduction slowly submitted to, the finest quality Wheat being kept back.

The sales noted last week were 106,646 qrs wheat at 44s 6d, against 126,553 qrs last year. The London averages were 45s 2d on 2,015 qrs wheat. The imports into the principal ports of Great Britain for the week ending 2d of June, in wheat and flour, were 77,265 qrs.

The crops in Scotland have been making satisfactory progress. Edinburgh, though not heavily supplied, was rather lower generally.—Glasgow, with moderate import, was dull, with a retail in wheat of 1s per qr reduction. Oats were also 6d. per boll cheaper. Barley, Beans, and Peas were a very heavy sale.

Ireland has also melted somewhat to the favorable appearances and dull reports hence, Dublin being 6d per brl cheaper for Wheat, and 3d per brl for Oats; Oats at Waterford were 3d to 4d per brl down; for Wheat and Flour there was a steady sale, without change of value. Maize sold freely, at a trifling decline. Cork prices were unchanged.

**The Capitol "Extension."**

The Madison papers announce that work has been resumed on the rickety, tumble-down "extension" of the old Capitol building, and that it will be prosecuted vigorously. The Madison people have in some way got the contract abandoned by Kyerulf into their hands and are making a last desperate effort to retain the Seat of Government. "desperate" it is, indeed, since the appropriation made by the States is exhausted, and Madison is raising funds on the City Bonds, ($50,000,) donated by her, and last Saturday her Common Council executed *a Mortgage to the Governor* on her City Hall, for the payment of these bonds.

Of course, Madisonbas a right to do all this, and as her people feel that a mortal struggle awaits them next winter, they do well to fortify their position as well as they can. We rather like their energy and public spirit; but, in all sincerity, we must express our confident belief that their labors will avail nothing, literally nothing at all. Their design is to carry out the original plan of the enlargement of the Capitol building, and thus "settle the location of the Seat of Government." That original plan would cost the State over $400,000; but Madison can not get another cent from the State nor involve her in any indebtedness or liability. So whatever she does with the building, it will be at her own expense, and we regard it as the very worst possible investment for her. It will not weigh a straw with the Legislature, who will dispose of the matters in question relative to the enlargement or removal of the Capitol, as their constituents direct. How that will be, every body out of Madison appears to know already. Again we affirm the general opinion in the Third Congressional District, that the Legislature has held its last session at the present Capitol of the State.—*Badger State.*

A DAY IN THE WHEAT FIELDS.—EDITOR EXPRESS—SIR:—I occupied yesterday in tramping over the east part of the town of East Hamburg, and the west part of the town of Elma. As I had heard reports from different portions of the country, relative to the ravages of the wheat midge, my attention was particularly directed towards fields of growing wheat. In many places I found the fields literally loaded with the weevil. I closely examined probably two hundred heads, in the course of the day in different fields. I found the number of weevil in each head varying from one to one hundred. Many large pieces will not yield the amount of the seed that was sown. Fields cleared last fall seem to be infected by these larvae, as much as fields that have been cleared for many years.—In my opinion, a half crop is all that will be gathered in Erie county at this harvest. Some pieces that were sown early, will yield an average crop. This is the third season since the weevil made its appearance in Elma. The raising of winter wheat in this county is at an end, for a few years at least. Those who sow again this fall, with the expectation of a recompense for their labor, will be disappointed. A gentleman in Alden sent a letter to the editor of the *Courier*, with some particulars regarding the insects in wheat; his statements were doubted because he did not send his name. Here is mine in full.

Yours, Truly, JOSEPH W. WATERS.

**Steamboats.**

FOR OSWEGO.—Steamer *Traveller* leaves every morning, (excepting Sunday,) from Johnson & Olmsted's Dock, at 9 o'clock.

FOR TWO RIVERS.—The steamer *Cleveland* leaves every morning, (excepting Sunday,) at 7 o'clock, from same place, for Two Rivers, stopping at Port Washington, Sheboygan and Manitowoc.

FOR GREEN BAY.—The steamer *Arctic* leaves for Green Bay, from Johnson & Olmsted's dock, every Wednesday, at 8 o'clock P. M.

FOR GRAND HAVEN.—The steamer *Forester* leaves Kellogg & Strong's dock every morning, (Sundays excepted,) at 9 o'clock, for Grand Haven—Detroit & Milwaukee R. R. connection.

FOR BUFFALO.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

FOR ODDENSBURGH.—A tri-weekly line of propellers also run to Ogdensburgh

GRIFFIN & BURNS, at the foot of East Water street, are the Ticket Agents for the above lines.

**Celebration of the Fourth—Arrangements for the Day.**

The celebration of our National Anniversary will doubtless commence at a very early hour, this morning, with *impromptu* vollies of fire-crackers, pistols, guns, &c., by the juveniles of our city and the children of larger growth. At sunrise the regular Federal Salute of 18 guns will be fired by the Light Guard Artillery Squad.

At 8 o'clock A. M., (*punctually* it is expected) the Military Companies, comprising the First Regiment of our State Militia, will assemble, on Market Square, and be reviewed by the Major and Brigadier Generals, accompanied by their respective Staffs.

At half past eight, the Military, the Firemen, and all others who propose to take part in the procession, will rendezvous on Main street, and at 9 o'clock, or as soon thereafter as possible, take up their line of march through the city, as prescribed in the Order of the Day. It is supposed that the procession will complete its march by, or before 11 o'clock A. M.

At 1 o'clock P. M., the steamer *Cleveland*, chartered by Company "A," Milwaukee Light Guard, will leave here on an excursion to Racine and Kenosha, returning hither by 9 P. M. This will be one of the features of the day. The *Forester* will also make an excursion to Grand Haven.

At 2 P. M., the Proprietors of the Newhall House, will serve up an old-fashioned Fourth of July Dinner, in superb style. In the evening they will also give a grand display of Fireworks. There will be various displays of the same sort, all about the city.

A Hurdle Race will come off in the afternoon, at the Cold Spring Course, which has been put in superior order by the newlessee, Mr. DOUGLAS. And at 5 P. M., there will be a spirited boat race in the river.

In the evening there will be two balls; one given by the Light Guard Cadets at Albany Hall, supper at the Newhall House; the other by Fillmore Engine Company No 6, at the Light Guard Armory, supper at the American. Both will be attractive entertainments, and, no doubt, largely attended and greatly enjoyed.

Numerous other amusements at the Gardens and elsewhere are announced, so that all so disposed will find no difficulty in making merry and celebrating, in good, old fashioned style, the glorious Fourth.

If the promise held out by the weather on Saturday be fulfilled, we may reasonably hope for a fine day, a handsome display, and a successful celebration.

CIRCUIT COURT—JUDGE MCARTHUR PRESIDING.—The Grand Jury presented the following indictments on Saturday:

Louis Fillimon, indicted for larceny in a dwelling. The defendant was arraigned and plead not guilty.

H. Doty, indicted for stealing from the house of Martain Delany, in the town of Lake, plead guilty, and was sentenced to one year's imprisonment in the State Prison. Doty is a bright and fine looking young lad, and it is really bad to think that one so young as he, should be sent to spend one of his boyhood's years amongst a hardened gang of thieves and villains, within the gloomy prison walls. His accomplice, and one who probably led him into crime, was one Thomas Duffy, an old offender though a young man, who has already spent a large share of his time in prison. This fellow was also found guilty on three indictments for larceny and robbery, and was sentenced to one year's imprisonment on each, in the State Prison, at hard labor. He merits it.

William Langhammer, the chap who visited nearly all the lumber and produce offices here a short time since, was arraigned on two indictments for larceny; one from the warehouse of F. B. Miles & Co., and the other from the office of Bagnall & Co., to which he plead guilty, and was sentenced to two years imprisonment in Waupun hard labor, and three days solitary confinement.

John Barry, on indictment for larceny in dwelling, plead guilty. His sentence was deferred by the Court.

The Petit Jury have been discharged until Wednesday, when the case of the State Bank of Wisconsin vs. Henry A. Montromery, which was commenced on Thursday afternoon, will be resumed. This is an action on a promissory note. The defendants claim the contract to be illegal and void, and contend that the note cannot be produced in evidence; that the plaintiff in making the contract, had violated its character. The Grand Jury also adjourned but will meet again on Thursday.

THE BALL TO-NIGHT.—One of the most agreeable features of the celebration to-day, will be the ball of the Light Guard Cadets, at the Albany this evening. The Cadets have completed their arrangements, and nothing is lacking to make the party a brilliant one. On Saturday the tickets were going like hot cakes, and the subject of conversation amongst all the young ladies of the city, for days past, has been what they "should wear at the Cadets' ball." If we mistake not there will be a gay gathering of the beauty and chivalry of Milwaukee, at Albany Hall, to-night.

POLICE COURT, SATURDAY.—Mary Ann Smith, and William Guest was convicted of disorderly conduct, and fined $10 and costs each. Chas. Muerman, disorderly, fined $5 and costs. Morris Riley, Peter Burns, Edward O'Conner, Martin Carroll and John Scully, draymen, were arrested for violating the new ordinance, relative to dray stands in the 4th ward, and the defendants discharged to appear on the 8th inst. for trial.—The case of Owen Murphy, charged with disorderly conduct was postponed to the 8th.

COMPLETION OF THE CUSTOM HOUSE.—We learn that Col. H. W. GURNISON, Superintendent of the Custom House, has received notice from the Secretary of the Treasury, that an appropriation of $17,700 was made at the last session of Congress, for the completion of the Custom House. This will suffice for finishing and furnishing the entire structure.

POST OFFICE HOURS TO-DAY.—Mr. J. B. DUNLAP, deputy P. M., informs us that the post office will be open to-day from 8 to 9 A. M., from 2 to 3 P. M., and from 8 to 9 P. M.

**1776 American Independence. 1858**

**Celebration of the Eighty-Second Anniversary of the Nation's Birth-Day.**

ORDER OF THE DAY.

1. Federal salute at Sunrise.
2. Procession of the Military, Firemen, and Civic Societies.
3. National salute at mid-day.
4. Fireworks in the evening.

The Committee hereby request that the Militia, Firemen, Civic Societies and others, intending to take part in the procession, assemble on Main street, at half-past eight o'clock A. M., on Monday next, 5th inst., to the end that the procession may be formed and put in motion by nine o'clock precisely.

The procession will be formed in the following manner:

1. Division and Brigade Staff—Gen. Hathaway and Gen. Best.
2. First Regiment of Wisconsin State Militia, under command of Col. King.
3. Fire Department.
4. American Express Company.
5. Civic Societies.
6. Citizens generally.

The route of march will be as follows:

Up Oneida street to Van Buren street; up Van Buren street to Division; down Division to Milwaukee street; down Milwaukee to Mason street; down Mason to Main street; down Main to Michigan street; down Michigan to East Water street; down East Water street to Walker's Point Bridge; down Ferry street to South Water street; along South Water to Reed street; up Reed street to Menomonee Bridge; up West Water and 3d streets to Chestnut street; up Chestnut to 4th street; up 4th street to Poplar street; down Poplar to 3d street; down 3d to Chestnut street; thence across Chestnut Street Bridge and along Division to East Water street; down East Water to Michigan street; up Michigan to Main street; and up Main to Oneida street, where the procession will be dismissed.

The Leaders of the several Civic Societies, intending to take part in the celebration, are requested to report by Saturday next, to any of the Committee, the name of the Society they represent, and number of members.

J. L. HATHAWAY, D. SHULTZ,
PHILIP BEST, O. M. HOFFARD,
EDWARD O'NEIL, JOHN LARKIN,
Committee.

MILWAUKEE, July 1st, 1858.

**Regimental Orders.**

FIRST REGIMENT WISCONSIN MILITIA,
Head Quarters, Milwaukee July 1, 1858.
*Regimental Orders, No. 4.*

The several Companies composing the First Regiment, Wisconsin State Militia, will parade on Monday next, the 5th instant, in honor of the 82nd anniversary of American Independence.

The Line will be formed on Market Square, at 8 o'clock A. M., when the regiment will be reviewed by Major General HATHAWAY, commanding the 1st. Division, and Brigadier General BEST, commanding the First Brigade.

After the Review, the Regiment will take its proper place in the general procession, and follow the line of march prescribed in the Order of the Day. The several Companies will be dismissed as soon as the procession shall have returned to the starting point.

A Federal salute will be fired at sunrise by the Light Guard Artillery Detachment, and a National Salute at mid-day, by the Milwaukee Artillery.

The Milwaukee Dragoons, Capt. GEORGE, will act as escort to the Major and Brigadier Generals.

ROBERT CHANDLER is hereby appointed Adjutant of the Regiment, *vice* E. F. TOWNSEND, resigned.

RUFUS KING,
Col. Commanding, 1st. Regt.
ROBERT CHANDLER, Adjutant.

FIREMEN TAKE NOTICE.—The several Fire Companies, comprising the Milwaukee Fire Department, will meet on Main street, between Oneida and Mason street, on Monday morning next, at half past 8 o'clock, to participate in celebrating the 4th of July.

D. SHULTZ, Chief Engineer.
Milwaukee, July 2d, 1858.

THE BRIG YOUNG AMERICA.—On Saturday morning, the propeller *Racine* came into port with the brig *Young America* in tow, which she brought from Chicago, to be repaired at this port. The *Young America* presented rather a *wrecked* appearance, as she came up the river. She was minus masts, rigging, and everything else but her hull. It will be remembered that the *Young America* collided with the schooner *Surprise*, some weeks ago, off Thunder Bay Island, in a fog, while on her way from Buffalo to Chicago.

In the collision her foremast was broken off above the cross-trees: her mainmast snapped off at the deck, and her entire rigging, booms and all, swept overboard. One man had his arm broken, but strange to say, no life was lost. The *Surprise* was also somewhat damaged, but not so much as the other. Both vessels were sailing swiftly at the time, and had they come in direct collision, one of them certainly would have been lost. The hull of the *Young America* was not materially damaged. With new masts and rigging, she will be as good as ever.

LITTLE GIRL DROWNED.—A little girl, named MARGARET BURKE, was drowned at the Chesnut street bridge, about noon on Saturday. The bridge was partially open, undergoing repairs, when the little girl walked off into the river from the sidewalk and was drowned. She had a little basket in her hands with some clean shirts in it, which she was taking to their owner for her mother, who is a wash woman, and resides in the First Ward. She was walking along carelessly and not noticing that the bridge was open walked into the river and sunk before any assistance could be rendered to her. It was not ascertained until near evening whose child she was, and when the poor mother heard of her child's death she became perfectly frantic with grief. The little girl was about 11 years of age.

ACCIDENT ON THE PROPELLER CHICAGO.—A young man employed on board the Propeller *Chicago*, which arrived here on Saturday, had one of his feet cut off at the ankle by a rope at Old Mackinaw, on Thursday evening last. As the propeller was leaving the dock, he was fastening a line to a pile on the dock, when his foot got caught in the coil of a rope by some means, which was being run out with great velacity, and instan ly severed from the leg. The bone was badly shattered and he suffered intense agony on the way up. His name is JOHN RILEY; he is a single man, and Buffalo is his place of residence. He was taken to the Hospital of the Sisters of Charity, where he will receive proper attention.

THE WALKER HOUSE, MILWAUKEE.—There is not a city in the whole West that can boast of as fine hotels as Milwaukee, and among her best is the Walker House. It is situated on East Water street, opposite the Post Office, in the most central part of the city. The proprietors are gentlemen of the "first water"—courteous, attentive and kind—make you feel comfortable and at home, whether you are in the mood to enjoy it or not. Although the house is elegantly furnished, well ventilated, good beds, and the fare sumptuous, yet the terms are reasonable and within the means of all—being only $1 50 per day. We can commend the Walker House and its gentlemanly proprietors (Messrs. Hasbrouck & Pierce) to the public, with perfect confidence in their ability to mete out full justice to all the wants of the traveller.—*Berlin Courant.*

SATTERLEE, BELL & CO.'S GREAT AMERICAN CIRCUS.—In our last issue we alluded to this new and magnificent establishment, suggested and gotten up by Messrs. Satterlee, Bell & Company. It is characteristic with this Company, that whatever they engage in they go into with their whole soul, and with a determination to conquer a success.

They conceived the idea of the Great American Circus in the early part of last winter, and immediately put matters in train for its completion; and now the Company have as complete a traveling paraphernalia in the Circus line as was ever turned out.

The wagons, for lightness, beauty and durability we have never seen excelled; the Band Chariot being one of the most exquisite specimens of wagon architecture that ever run on four wheels. In fact, the outfit is a show of itself, aside from the performance in the arena.

Their pavilion is 85x127 feet, made of blue and white canvass.

The managers, though young men, are veterans in their profession, and therefore they have had an eye single to the selection of such a troupe of performers as will leave a good impression behind them in such parts of the country as they may chance to pass through; among whom are Tino. Neville, the great trick rider; Dan Castillo, the clown of clowns; John Davenport, another son of Mounts; Oliver Bell, who as a bare-back rider has never been excelled.

Oliver Dodge, Chas. Morrison, John Wolfington, Hiram Marks, I. W. Tucker, M'lle Antoinette, Madame Louise and a host of others all stand high in their profession.

We must unhesitatingly commend this talented troupe of Messrs. Satterlee, Ball & Co., to the admirers of the Equestrian Art, who may be visited by them during the summer campaign, assuring them, at the same time, that they will find both managers and attaches gentlemen in every sense of the word.—*Cincinnati Daily Enquirer.*

This Great Show will perform in Milwaukee on Saturday July 10th. See Advertisement.

KROEGER' ICE.—In consequence of the very warm weather, and the greatly increased demand for KROEGER'S pure ice, "HENRY" has been obliged to advance his price somewhat, else every one in the City would take his ice, and he would then be left without enough to supply his customers who have contracts for the season. HENRY told us some time since not to advertise his price list any longer, but through an oversight of ours it was left in until Saturday. People must not think, therefore, that the "Original Ice Man" charges them one price and advertises another. The advertisement should have been changed long since.

RAILROAD TICKET OFFICE.—The Lake Shore Railroad Company have opened a ticket office, we notice, on East Water street, near the Walker House, for the sale of tickets, both for their own road and all others connected therewith. Persons can buy tickets here for any road going East via Chicago, or tickets to Chicago by the Lake Shore road. Mr. WM. W. WILSON is agent.

HUNGARIAN WINES.—Mr. FREUND, of New York, an experienced wine dealer, is at No. 216, Newhall House, with some samples of Hungarian Wines, which, for quality and cheapness, are well worth the attention of those who like the pure juice of the grape.

TO THOSE WHO WANT TO PRESERVE THEIR SIGHT!—Eyes are very often injured by glasses not suited. Messrs. SALOMON & Co. can, by their great experience and help of Baraless Optemeter ascertain the exact power of the eye, and suit everybody with their celebrated Perriscopic Crystals.

☞ TO DRUGGISTS AND THE PEOPLE.—You are hereby cautioned against spurious imitations of Dr. De Grath's "Electric Oil," as we shall prosecute any party who uses our *copy righted* bills. This (genuine) "Electric Oil" has cured the Mayor of Camden, of Piles and Rheumatism; also, Hon. John Williamson, of Huntington, Hon. E. Killingsarth, (whom it took off his crutches in one day) and more than 100 others in Philadelphia, whose names have been published in the Philadelphia *Ledger*.

The wholesale dealers in Philadelphia would not countenance any scamp guilty of the rascality of counterfeiting. In Harrisburg, John Wyeth, Esq., a well-known Druggist there, caused the arrest and imprisonment of one Valentine, who attempted an imitation of this valuable remedy. A gentleman will soon be in Pittsburg, and will be able to show the people what power this Oil has over disease and pain.

Principal office 59 South Eighth street, Philadelphia. No (genuine) Oil without the name Dr. De Grath's Electric Oil blown in the bottle, and the written signatures of Dr. De Grath & Co., and E. A. Smith, to imitate which is felony!

☞ For sale by Bosworth & Sons, and J. H. Tesch, Milwaukee; Fahnestock & Davis, and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country. je80dawlw

☞ PROF. WOOD'S HAIR RESTORATIVE.—In our advertising columns is to be found an advertisement of this popular restorative. We know nothing of its merits save what we read, but that is sufficient, particularly when we see such testimony of its efficacy as the following, which we clip from the Ottawa *Free Trader*:

Having tried successively many highly recommended hair tonics, on our own half denuded crown, we about lost all confidence in nostrums of that sort, until a week ago we met a distinguished politician of this State, whom we had seen three years ago with thin hair, and as "gray as a rat," but now boasting as fine a head of hair as one could wish. We demanded the secret of his improved appearance, when he readily accounted for it by ascribing it to the virtues of Prof. Wood's Hair Restorative. We will try that next.—[Rock River Democrat.

**The Monroe Funeral.**

NEW YORK, July 2.

The Monroe funeral procession started at four o'clock from the Church of the Annunciation, on Fourteenth street, to which the remains were removed early this morning. The funeral cortege was large and imposing, the military turning out in full ranks. Immense crowds thronged the streets through which it passed to the City Hall. Many of the buildings along the line of march were draped in mourning, flags were at half mast on the shipping and all the public buildings, and minute guns were fired from various points during the movement of the procession. At half-past five the procession reached the City Hall, where the remains will remain under guard of honor until their final removal to-morrow.

NEW YORK, July 3.

The remains of Monroe escorted by the seventh regiment, reached the steamer *Jamestown* about noon, and were formally delivered over to the Virginia Committee. The National Guards embarked on board the *Ericsson* at 11 o'clock. Both boats sail at 12 o'clock, if the weather is propitious. On arrival at steamer, John Cochrane formally delivered remains to Virginia Committee in an eloquent speech, to which Jennings and Wise made a felicitous response, tendering the care at gratitude of the people of Virginia, for the honor done by New York to her distinguished son.

He could not, he said, abstain from some reference to the example and memories of James Monroe. This was no mere pageant, it was a political solemnity, necessary on occasions, to preserve the patriotism of the Republic. Mr. Monroe had set great examples of true patriotism and integrity.

The 7th Regiment had assembled to do honor to a fellow soldier of New York, for Monroe first drew the sword in defence of his country and liberty, at Harlem Heights and White Plains. He reviewed the political career of Mr. Monroe, saying his greatest error, an error of judgment only, was, in the orator's opinion, his opposition to the Federal Constitution.

This would have been politically fatal to ordinary men, but Monroe had too strong a hold upon the affections and confidence of his country. Monroe was among the few who could rise above the reproach of poverty, although in the multiplicity of his public cares he had had no time to care for his future, and therefore retired from office in depressed circumstances.

MILWAUKEE:

MONDAY MORNING, JULY 5.

### Our National Anniversary.

The Eighty-Second Anniversary of American Independence will be duly celebrated this day, in all parts of the American Republic, and with a spirit that does not flag as years glide by. Indeed, the lapse of time only seems to endear to every true American heart the memories and the associations which cluster round the Fourth of July. Looking back through the comparatively brief period of our National existence; remembering the long and doubtful struggle which finally ended in the achievement of our Independence; comparing the small beginnings with the present magnificent proportions of our Republic; what American heart does not throb with pride in the contemplation of our country's progress and prosperity, and glow with gratitude towards that Supreme Being, whose superintending care has preserved us alike from foreign wars and domestic dissensions? And as we gaze today upon that bright and starry banner which will float from mast head, house top and liberty pole, in all quarters of our beautiful city, and recall how, one by one, the number of those stars has been increased, till instead of the original THIRTEEN the glorious galaxy now counts THIRTY-TWO, why should we repress the patriotic enthusiasm which the reminiscences is so well calculated to excite, or hesitate to honor, with bonfires, with fire-works, with illuminations, with martial music, with the cannon's thunder, with military and civic processions, and with all other customary ovations, the Anniversary of that memorable day when the stars and stripes first floated over A FREE AND INDEPENDENT PEOPLE!

Rightly, indeed, do we honor the day and the memory of those illustrious Warriors and Statesmen, who fought for and won our Independence, and who framed and established our Constitution and Union. And may the time never come when the American People shall become so forgetful of these precious memories, or so indifferent to the blessings which the Heroes and Sages of 1776 bequeathed to them, as to suffer our National Anniversary to pass by unnoticed, unhonored and unsung. Rather may each succeeding year increase the patriotic fervor with which its advent is hailed, and add to the pomp and circumstance with which the Day is celebrated, and let us all, to day at least, honor with heart and hand, with voice and will, the GLORIOUS FOURTH OF JULY!

HON. C. C. WASHBURN.—We copy this morning, a communication from the, La Crosse *Republican*, strenuously urging the re-nomination of Mr C. C. WASHBURN in the Western Congressional District. The *Republican*, referring to it, says:

"So far as we are able to judge, this is the prevailing sentiment in the upper counties."

This tallies with our own information, as to the general preference of the People of that District.

THE PRINTING VILLAINY EXPOSED.—We ask our readers to give the article, entitled "The Printing Bids," which we publish this morning, from the *Argus & Democrat*, a careful perusal. It shows that Gov. Randall's pimps—Pump, Tenney, Wakely, Hyer, Quiner, *et id omne genus*, were detected in time to save the State a hundred thousand dollars! at least. Comment is unnecessary.—*News.*

The "swift witness" whom the *News* cites to prove this charge, was just as deep in this "villainy" as any of the "pimps" whom the *News* names. To Gov. RANDALL belongs the credit of having interfered "in time to save "the State a hundred thousand dollars! at "least." *That*, "comment" the *News* is very careful not to make.

REMOVAL.—We learn that Myron B. Williams, Esq., Postmaster at Watertown, has been removed from office, and Gen. Potter appointed in his stead. We have always considered Mr. Williams a staunch and unflinching Democrat, upright and honest in all his business transactions, and we regret exceedingly that he has lost an office which he has filled with so much credit; and it looks reasonable to suppose that misrepresentations from a me quitter or other, has effected the change.—*Jeffersonian.*

The *Jeffersonian* must be mistaken. The *News*, which may be supposed to know intimates that this change was brought about through the instrumentality of Senator CHAPPELL, who never making "misrepresentations," and that it is satisfactory to the people of Watertown, with whom Mr. WILLIAMS, was "not popular."

CURIOUS JUXTA-POSITION.—In the *News* of Saturday the following paragraphs stand in singular juxta-position:

To be sure, there has been a change in our city Post Office—but what of that?—*Sentinel.*

Sure enough—what of it?

"You'll break my heart," as the oak said to the hatchet.

The *News* seems decidedly "broken-hearted," since the "change" in question.

THE CHICAGO DAILIES.—We mentioned, a day or two since, the consolidation of the Chicago *Press* and *Tribune*; the resulting product being a very large, well filled and first class newspaper. Simultaneously with this change, the Chicago *Daily Journal*, a long established and excellent paper, appears in a new and handsome dress, and nerves itself, with vigor and determination, for honorable rivalry with its morning cotemporaries. Chicago has good reason to be proud of her daily press.

SIDE-WHEEL STEAMERS.—A paragraph has been going the rounds of the press, lately, to the effect that there were no side wheel steamers now plying on Lake Erie, while but a few years ago two or three a day cleared from Buffalo.—It is true, we believe, that all the steamboat lines from Buffalo have suspended operations, the Rail Roads by land, and the Propellers by water, monopolizing the business. But there are daily lines of steamers plying from Detroit, Cleveland, Toledo, &c., on Lake Erie, and between the different ports on Lake Huron, and Lake Michigan. The steamboat arrivals at this port, Milwaukee, average three or four per day, and the Detroit *Tribune* says that they average seven or eight per day at that point. The steamboat business, on this Lake, must increase, but its palmy day on Lake Erie has gone by.

ST. MARY'S FALLS SHIP CANAL COMPANY.—A meeting of the Directors of this Company was held at the city of Albany on the 24th and 25th of June. The Directors elected at the annual meeting in May, consist of the following gentlemen: Erastus Corning, Albany; Erastus Fairbanks, Vt; John W. Brooks, Boston; John M. Forbes, Boston; John V. L. Pruyn, Albany; John F. Seymour, Utica; Benjamin Tibbets, Albany. Business of importance was transacted respecting the development of the resources of the lands of the Company, and, the *Free Press* says, it is their intention to offer at auction some of their farming lands in the interior counties of this peninsula, at low minimum prices, to be fixed by the agent in Detroit, who is now engaged in making arrangements for this sale.

EXCESSIVE HEAT IN NEW YORK—DEATHS FROM SUN STROKE.—During the first three or four days of last week, the heat in New York was excessive; the mercury ranging from 94 to 98 in the shade, at two P. M. On Tuesday last, no less than *twenty-seven* deaths occurred from sun stroke.

FOLEY TURNED LOOSE—ANTI-LECOMPTONISM IN THE ASCENDANT.—The ambitious Representative from the Fourth District of Indiana, has been "turned loose in the District" by his constituents, in a sense contrary to that intended by these words in his memorable letter. The Indianapolis *Journal* gives this account of the matter:

"The Democratic Congressional Convention in the Fourth District was held on Tuesday, at Greensburg, and on the first ballot William S. Holman received 118 votes, D. D. Jones 47, and B. F. Mullen 44, thus nominating Holman at the first effort. This is an anti-Lecompton victory, as we apprehend it. Holman was one of the leaders in the emeute of the 18th of January, and has been one of the prominent, though not very active men, of that side ever since. John L. Robinson, who has hitherto owned this district, was bitterly opposed to him, and no doubt fought him savagely, and this result must be a very unpleasant pill to the great embodiment of sanity. What resolutions, if any were passed, we have not heard, but it is not unlikely that some ball way or whole Lecompton stuff has been forced down to take the taste of Holman out of their mouths. This is a substantial anti-Lecompton victory, though not a very dazzling one, and occurring right under the nose and on the premises of the Marshal, its importance will be enhanced considerably over what it would have been in a District making more professions of Douglasism."

LA CROSSE AND MILWAUKEE R. R.—The New York *Tribune* of Wednesday last, brings us the following information as to the financial plans of the La Crosse & Milwaukee R R:

"We have it now officially from the Vice President of the La Crosse and Milwaukee Rail Road, that the August interest on the Land Grant bonds of that road is provided, and the coupons will be duly paid. A committee has also been appointed, of which the vice president, Mr. Guest, is chairman, to take measures to arrange the floating debt and unsecured bonds, and clear the company from all its embarrassments. The committee propose to take a third mortgage of $2,000,000, with which they are confident they can fund all the debts of the company not now secured by mortgage, including the "Barstow" bonds, the second mortgage land grants, the "corruption bonds" the bonds issued to the Watertown Rail Road, &c., and the floating debt, the aggregate of all being about $4,000,000. A large number of the largest claimholders have already expressed their willingness to make the exchange. This will have the road of 200 miles with a mortgage debt of $3,000,000. Some compromise will afterwards be made with the stockholders so as to reduce the stock to $1,000,000 or $2,000,000. Mr. Chamberlain, the contractor, writes that the road will be completed to La Crosse, by the 1st of October, and the managers are very confident that then the earnings will be ample the first year to pay all the interest on the debt, and after the first year leave something for the stock, which latter, however is extremely doubtful.

QUITE A CONTRAST.—The New York correspondent of the Boston *Traveller*, after speaking of the splendid performances of some of the yachts in the recent regatta around Long Island, gives Uncle Sam the following hard hit about his navy:

"Somewhat of a contrast to the performances of this mosquito squadron are those of the U. S. steamer Arctic, which was sent out under Com. Hartstein, to capture the British fleet. Lt. Weed sends home an amusing account of her exploits, from which it appears that her average speed was three miles an hour under favorable circumstances, but the inconvenience arising from a breakdown of the machinery and of a dangerous leak, materially interfered with that rapid rate. During a gale, he writes, a corporal's guard of marines was ordered to hold on to the howitzer, in order to keep it from pitching overboard.

NEW ENGLAND RAILWAYS.—The New England railways appear to be recovering from the effects of the commercial depression. The Western Railroad pays its usual semi-annual dividend of 4 per cent; the Stoughton branch road pays 3 per cent; the Boston and Providence 5, the Old Colony 3, the Norwich and Worcester 3½ per share, Providence and Worcester 3 per cent, and the Worcester and Nashua $2 per share.

COL. HOWE'S DISCLAIMER.—We cannot do less than copy entire, Col. Howe's letter to the Milwaukee *Sentinel*, correcting an error which that paper fell into. For a full explanation of the circumstances, we refer the reader to the letter itself.

Concerning the "one uniform," we may as well say a word. It is a uniform which he sent to us upon learning of our appointment in the army—he having no use for it, being nothing but a Judge at that time. He had worn it but once, we understand, in some desperate action in Maine—we think during the Aroostook War—wherein all the officers and most of the soldiers had to be carried from the field. The uniform did not fit us. It was presumption to expect that a military suit from the State of Maine would cover a Wisconsin Colonel. We then offered to transmit our commission to him, and pending the correspondence upon that subject, he was appointed Division Engineer with the rank of Colonel. We shall now expect to see him arrayed in the veritable uniform itself.—*Green Bay Advocate.*

ILLINOIS CENTRAL RAILROAD.—The financial difficulties of the Illinois Central Railroad Company, and the unwillingness of the stock holders to take the remaining of the optional right bonds and thus relieve the company from its floating, debt, has forced the managers of that company to call an installment of $20 per share, which will make $60 in all paid up. As the optional right bonds, of which $2,000,000 have been issued, are receivable for installments, they will provide for about two-thirds of the new call.—The floating debt is about $1,700,000, and it is believed that the proceeds of this call, with the sale of some assets, will clear it all off, and enable the company to lift the assignment. The shares number 174,912, and, when the new call is paid up, the share capital will be about ten millions. "This large call," says the N. Y. *Tribune*, "will take many stockholders by surprise, and will doubtlessly have an injurious effect upon the stock both here and in Europe, but the managers saw no other way to make the stockholders bear equally the burden of extricating the enterprise from its embarrassments."

DEATH OF LIEUT. HENRY BROOKS, U. S. N.—Lieut. Henry Brooks, the last surviving officer of the Kane Expedition, came to his death in a very sudden manner, on Tuesday evening. It appears that while standing by the Lyceum in the Navy Yard, Mr. Brooks was suddenly taken with a fit, and staggering, fell backwards. His head struck the pavement with great force, and so violent was the fall that the skull was terribly fractured, indeed, completely broken. The unfortunate man was taken to the Hospital, and died in a few moments afterwards.

Mr. Brooks was one of the most reliable and distinguished officers of the expeditions to the Arctic regions, and was justly held in high esteem by all who were fortunate enough to know him. At the time of his death he was acting as Boatswain in the Navy Yard, though his real position was that of Lieutenant. He wore medals from Queen Victoria, President Buchanan, and Lady Franklin, all awarded him for the distinguished services he had rendered in the humane undertaking of searching for the remains of Sir John Franklin. He has not been to sea since the Arctic voyage, because he lost part of both feet by the frost on that expedition.

The deceased was 45 years of age, by birth a Swede, and had been in the American Navy for a great length of time.—*New York Express, June 30.*

☞ The amount of rain that has fallen over a large portion of the United States in six weeks, running from the 1st of May to the 12th of June, has scarcely a parallel. The Pittsburgh *Journal* says the average of observations will give about 10 inches in May and 5 to the 12th of June, or 15 inches in 43 days. These rains do not appear to have been local, but extend east and west at least 1,000 miles; north and south half that distance.

CAVED IN.—The dwelling house of A. Kruer, in the Third Ward, caved in last night, damaging, to a considerable extent, the household articles, the family escaping uninjured. We have not ascertained the cause.—*Madison Argus.*

☞ It is rather melancholy that the two greatest living novelists, Dickens and Bulwer, are separated from their wives. Each of the two seems to be idolized by almost every lady in the world except the one he interchanged vows with at the altar.—*Louisville Journal.*

☞ Mr. William H. Rarey, brother of the famous horse-tamer, who is now in England, is teaching the art in Champaign county, Ohio. At Urbana he has a class of some 25 or 30 pupils at $10 each.

☞ Dr. Alexander Shields, of Springfield, Ill., presided at an Anti-Douglas meeting held there a few months ago. He has now declared himself, in a letter to the Register, favorable to the Douglas ticket.

☞ Mr. Bürrell, a Quaker, living near Rochester, some years ago married his cousin, and the product of the marriage being an idiot child, the father hung himself last week.—*Syracuse Journal.*

### Dreadful Disaster.

*Burning of the Steamer Galena—Great Loss of Life—Mails Destroyed—List of the Saved and Lost.*

From a passenger on the Steamer War Eagle, which arrived here this afternoon, we derived the particulars contained in the following Extra:

RED WING, July 1, 4 A. M.

As the steamer Galena was landing at Red Wing this morning, at 1 o'clock, a fire broke out about her smoke stacks, which soon spread and resulted in her entire loss.

None but an eye witness can describe the confusion or realize the scene. As soon as the flames broke out, the alarm was given, and men, women and children came rushing down the stairway leading to the deck.

On account of the rush the men were unable to launch but one plank which greatly added to the confusion.

The fire originating forward her wheel-house, and the wind blowing quite fresh down stream, in a few moments the entire boat was one living flame.

The loss of the steamer is complete, no insurance. Little or no baggage is saved, mail is lost, passengers are quite destitute.

No effort will be spared to relieve their necessities and hasten them to their destination—The universal opinion expressed by all the passengers, is that Captain Laughton and his officers did all that could be done, and no blame can be attached to them, but particular credit is due the pilot for the noble manner in which he maintained his post until driven away by the flames.

The books of the boat not being saved, we have made out a list of saved and lost, as best we could. Enclosed please find the same.

In haste,
MESEROLE & MCLAREN,
Agents of Packet Co., Red Wing.

P. S.—The boat is burnt to the water's edge; no freight is saved. Fears are entertained that others may have been lost, the confusion was so great.

LIST OF THE LOST.

### Our next Representative in Congress—Who shall it be?

MR. EDITOR:—The time is rapidly approaching for the friends of liberty and Freedom, in this District, to think and act as to the matter of selecting their next Representative in the National Councils.

Our District is a very large one, comprising one-half of the State, and must necessarily contain many aspirants for this high post of honor—many of whom we should be glad to honor with our confidence in the management of our public affairs.

A servant, however, to understand thoroughly our varied wants and interests, must be thoroughly acquainted with this vast District from personal knowledge, not by hearsay. He must be thoroughly identified with us in interest. We want, not mere politicians, but cool-headed, practical prudent and sagacious business men. Men who understand the people—the masses.

Such, we venture to say, is conceded to be the character and qualifications of our present *able* and worthy Representative. That man does not exist who is more thoroughly identified, in all respects, with the interests of this vast District, than Caldwallader C. Washburn. He is not a politician—but is a business man, of an enlarged scope and breadth of mind, well fitting him for an able, practical legislator, and a fearless friend of Freedom, and the Rights of Free Labor, with Protection to American Industry. We have ever found him reliable, firm, steady, and true.

Shall we turn such a man aside to make way for aspiring politicians? Or rather, shall we not do as all sensible business men are wont to do, when they have been fortunate enough to secure capable and faithful employees—retain them in their employ as long as possible.

The principle of rotation is a good one for aspiring politicians—it gives them a chance. It is equally good when it is necessary to get rid of unfaithful and dishonest or unfit public servants. But its rigid application deprives us of the services of many of our best servants—and that, too, just when they become qualified to discharge their duties understandingly.

Our servant is a good one—faithful and true. Moreover, he has proved himself at all times ready to defend the right of Free Thought, Free Speech and Free Labor. He flinches not before the threat of the insolent slave-driver. Such members are feared by the "fire-eaters" and "Union-dissolvers" of the South. Let us, then, show by our action, that we endorse and uphold our servants in their manly defence of our sacred rights.

Let us disregard the wishes of all aspiring politicians and cliques, and with one voice demand the re-nomination and return of our present Representative. Aye, more than this, let every press in the District, favorable to his return, speak their wishes, and if they deem it advisable thus early to do so, place at their head the name of Hon. Caldwallader C. Washburn, and by their unanimity of action in so doing, do away with the necessity of holding a Congressional Convention, save for the purposes of interchange of opinion, perfection of organization, and promulgation of principles.

VOX POPULI.

—*La Crosse Republican.*

### The Assessment Steal.

The Madison *Argus* is *mad as an* Argus about the refusal of the blanks of their printing by the Clerks of the several counties of the State, and, convinced that no *pocket* capital is to be make out of the business, endeavors to make *party* capital out of it, as follows:

"Where republican papers are printed at the County Seats of republican counties, and have a friend as Clerk of the Board of Supervisors, they feel unpleasantly about the assessment blanks. The only reason is that they miss a chance to swindle the counties out of about a thousand dollars apiece that we do for about $200 apiece.

In addition to this, there are two jobs of assessment blanks to be printed in the counties for which the county papers will average about $800 apiece. But they are not satisfied with this—they want to steal a great deal more."

To all of which we reply:—

1st. The Democratic press has spoken almost "to a man" against the swindle, as well as the Republican.

2nd. Instead of swindling the County out of a thousand dollars, our bill for the assessment blanks is but $125, instead of $200, and for a job that the *Argus* thinks we charge $600, we charge but $25. We have printed the blanks for the whole country, and Old Sauk is about on an average with the other counties as regards population and size.

3rd. The *Argus* proposed to swindle this county out of, not $1000, oh no? only $200, but did not succeed.

Pray, Mr. *Argus*, who foots the bill? You or Mr. Secretary Jones?—*Baraboo Republic.*

MACKAY AT HOME.—The London Illustrated *News* thus announces the return of Charles Mackay:

America, we are happy to think, has just returned to us a real friend, and in good looks and good health, and with money in his pocket—dollars convertible at once into dragon sovereigns. Charles Mackay has returned to the Strand. Our friend is warm in his acknowledgements of the hearty welcome he received from the land of Columbus and the Pilgrim Fathers. When the Leviathan is at sea (if not before) we shall start across and give Jonathan a hearty shake of the hand (in the flesh—not as now only in printer's ink) for making much of Mackay.

DEATH OF A VENERABLE LADY.—While the Superior Court was in session to-day, Judge Lee received a telegraph despatch announcing the death, in Washington, this forenoon of his venerable and venerated mother, upon which the Court immediately adjourned. Mrs. Lee was universally and highly esteemed for her eminently charitable feelings and great kindness of heart.—*Baltimore Patriot.*

Mrs. Lee was the widow of one of Washington's Aid de-Camps, and retained a vivid recollection of Revolutionary scenes. Washington "gave her away" at her Marriage, and honored her with a wedding dinner at Mount Vernon.—She was upwards of ninety years of age.

For the Argus and Democrat.

### The Case of Assemblyman Sharp.

MESSRS. EDITORS:—In the Weekly *Argus & Democrat* of June 22nd, I notice an article in which you state that you had learned that I "was convicted on the indictment against" me "for running a private express in opposition to the United States mails," and that I was "severely reprimanded by the Court." As the article in question is incorrect in some respects, and is liable to mislead the public, I wish to say that no indictment whatever was ever found against me. The suit against me in the U. S. Court was brought as an action of debt and was a civil suit. I was not aware that I was severely reprimanded by the Court, until I saw it stated in the newspapers. My offence was simply this, and nothing more:

For reasons satisfactory to myself, and for my own protection, during July, August and a part of September of last year, I mailed nearly all of my letters at the Sweet Home Post Office, some three or four miles distant, and at the request of some of my neighbors, and to accommodate them, I took some of their letters and deposited them in said office, together with my own letters, to be transmitted in the United States mail.—All of the letters were prepaid by stamps or in stamped envelopes, before they were taken to the office, and the Post Office Department never lost the postage on a single letter through any agency or act of mine. I never carried a letter to said post office except when I had letters of my own which I wished to have mailed.

I never received any compensation whatever for carrying any letters, nor have I defrauded the Post Office Department out of the postage on a single letter. I have very briefly stated the facts in relation to the matter, and an impartial public will draw their own conclusions.

JOHN W. SHARP.

### The Star Spangled Banner.

Oh! say, can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming;
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there
O! say, does the star-spangled banner yet wave
O'er the land of the free and the home of the brave?

On the shore, dimly seen through the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, half conceals, half discloses?
Now it catches the gleam of the morning's first gleam,
Its full glory reflected now shines on the stream:
'Tis the Star Spangled Banner, O! long may it wave
O'er the land of the free, and the home of the brave.

And where is that band, that so vauntingly swore,
That the havoc of war and the battle's confusion,
A home and a country should leave us no more?
Their blood has washed out their foul footsteps pollution.
No refuge could save the hireling slave
From the terror of flight or the gloom of the grave.
And the Star-Spangled Banner in triumph doth wave
O'er the land of the free and the home of the brave.

O! thus be it ever, when freemen shall stand
Between their lov'd home, and the war's desolation,
Blest with victory and peace, may our heaven rescued land
Praise the power that hath made and preserved us a nation!
Then conquer we must, when our cause it is just,
And this is our motto—"In God is our trust!"
And the Star-Spangled Banner in triumph shall wave,
O'er the land of the free and the home of the brave.

(From the New York Tribune,)

### Volunteer Diplomacy.

We publish this morning a letter from a responsible source, unfolding a new and most remarkable chapter in Central American diplomacy. Briefly—M. Felix Belly and his French gascounade on the one hand, and the old Transit Company with its new treaty on the other, have been completely out-generaled by Commodore Vanderbilt, who has made a personal treaty with Nicaragua, backing it with a loan of $100,000 from his own pocket, and has thereby secured to himself a monopoly of the Transit Route for a term of years! The apprehension of our contemporaries that Louis Napoleon was about to take military possession of the Nicaragua transit, and the nonsense about our fighting him thereupon in pursuance of "the Monroe doctrine," are all overboard together. The Transit Route is safe in American hands, under a contract which secures its re-opening within ninety days and its maintenance thereafter. Mons. Belly may retire.

We have hitherto urged the expediency of abolishing our Standing Army and relying on Volunteers for the National defense; we now suggest the expediency of extending this reform to the diplomatic service also. We are now paying some half a million per annum for our diplomacy, while all of it that is of any value is effected through the volunteered agency of private citizens. The Clayton Bulwer treaty—by far the most creditable and beneficient of any we have—is currently believed to be essentially the work of J. L. White; the Treaty of Mexico was made by Nicholas P. Trist, also a private citizen; the Mormon War has been closed up by Col. Kane; and now we have the Nicaragua imbroglio disentangled by Com. Vanderbilt. If Mr. Buchanan will just recall Messrs. Mason, Dallas, Caesar Dodge, Meade, Maj. Cass, &c., and be careful and send nobody (instead of nobodies, as is the unfortunate custom) in their places, leaving the field of diplomacy open and free to American genius and address, we may reasonably look for a long career of peace, progress and external prosperity. By all means, let us have the Voluntary system extended, that is, in theory, as it would seem to be already in fact.

THE COURSE OF EVENTS.—The Philadelphia *Press* tells the following curious story of the French Emperor and his predecessor, Louis Phillippe:

When Louis Napoleon went to Boulogne, (with Montholon, the tame eagle, and an army not much larger than is seen on the theatrical stage), he had converted most of his property into cash, and, besides a large supply of gold, had the sum of £250,000, equal to $1,250,000 of our money, in his pocket-book. When he was taken prisoner, as he was swimming back to the City of Edinburgh steamboat, which took him to Boulogne, this money, in notes of the Bank of France, was in his pocket. In custody he was subjected to the usual search, and each article found upon his person was taken from him, sealed up, and transmitted to the authorities at Paris. According to custom, a receipt for these various articles was given to the prisoner. This receipt named his pocket-book, but took no notice of its valuable contents. In the agitation of the scene, Louis Napoleon did not observe the omission. He saw the whole packet carefully tied up, sealed and addressed to Louis Phillippe, according to specific instructions from Paris. He never had the slightest doubt that Louis Phillippe personally received the packet so addressed.

After his conviction by the chamber of Peers, and condemnation to perpetual imprisonment in the fortress of Ham, the various articles taken from Louis Napoleon were given back to him—pocket-book included. But the contents had disappeared. It was Louis Napoleon's belief, when he related this incident, that Louis Phillippe had thievishly appropriated, to his own use, the pecuniary contents of the pocket-book. A monarch who was so mean in money matters as Louis Phillippe notoriously was, could not resist the temptation of *sacking* 6,250,000 francs, belonging to a prisoner-*for-life*. It was the remembrance of this that made Louis Napoleon confiscate the Orleans property.

PRAYER FOR PARDON.—A petition was forwarded recently to the Hon. T. H. Hicks, Governor of Maryland, signed by 114 ministers of the M. E. Church, Black River Conference, asking for the pardon and release of the Rev. Samuel Green, a colored local preacher, who is now lying in the Penitentiary of that State, under a sentence of ten years imprisonment, for having in his possession a copy of Uncle Tom's Cabin.—*N. Y. Express.*

It would spoil the force of this paragraph to add a single word to it. A Minister of the Gospel imprisoned for ten years for having a copy of "Uncle Tom's Cabin" in his possession! There is not a despot on earth, Christian, Mahommedan, or Heathen, who would not be ashamed to be a party to so mean and cruel an act.—*Albany Eve. Journal.*

## MEDICAL.

AYER'S CATHARTIC PILLS.

THE sciences of Chemistry and Medicine have been long and earnestly taxed to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedented victories over the diseases of all men. They are safe and pleasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the diseases. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to their whole system. Not only do they cure the everyday complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill.—While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS and take nothing else. No other they can give you compares with them in the intrinsic value or curative powers. Their sugar coating the best aid there is for them and they sooner have it.

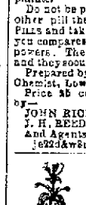
THE GREATEST



MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,

FROM

The worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimple, on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure sooly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, MASS.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need say nothing more on the subject, as the most reliable physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an Affectionate mother

Catawba Brandy.

THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.

The Ohio Catawba Brandy, not only equals but excels the best Imported Brandy in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.

The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded as a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for

# THE DAILY SENTINEL.

## COMMERCIAL & FINANCIAL.

### WEEKLY SUMMARY.

OFFICE OF THE DAILY SENTINEL, Saturday Evening, July 3, 1858.

We cannot say much of the business for the past week, either as regards produce, merchandise, or money. This is a time, however, when much briskness is not looked for in any department of trade. In our produce market there has been perhaps more business done during the week ending to-day, than the preceding one, at very nearly the same prices throughout, though about 2c lower on wheat than the closing rates of last week. Receipts of grain are rather light, as a matter of course, farmers being engaged saving their hay crop, which is very luxuriant except on low lands and marshes which have been covered with water the greater part of the season. The general tone of our foreign advices for the week indicate an extreme dullness in the various produce markets throughout Eu ope. The reports of fine prospects of an abundant harvest in every part of the Old Wor d are fully confirmed.

The weather during the past and the previous week, it is thought by many, has been the most favorable for the wheat crop, though we hear of no complaints from our own State, although the heat has been excessive, with almost daily showers for the past six or eight days. The general impression is, and has been all along, that the growth of wheat has been too luxuriant, the straw too heavy, and the weather of late has been such as to bring vegetation of every description forward at a hot house rate. In Illinois and Michigan the chintz bug has made its appearance and is doing considerable damage in portions of these States.

The prospects of a full corn crop, in the corn growing States, are now more promising, though the usual amount has not been sown. The Freeport (Ill.) *Journal* of a late date contains the following:

The warm weather is bringing on corn rapidly. It looks much better than it did one year ago. Not over three-fourths as many acres are planted, however, owing to the wet weather holding on so late, and to the washing out of so much. Wheat is looking finely, but the straw is too heavy in proportion, and in many fields the chintz bug is appearing. The chances, however, are probably in favor of a good yield. All other crops are doing well.

The Detroit *Advertiser* of the 1st, says that there is considerable complaint in various farming sections, thereabouts, of the workings of the weevil in wheat fields. The editor of the *Advertiser* has seen some heads of wheat from a field in Genesee County, in the kernels of which he found seventeen of these destructive insects. In other counties they are also said to be working considerably

In relation to the money matters at the Metropolis we take the following from the *Courier* of Wednesday:

The Stock Market is very feeble. Money is exceedingly abundant now, and the banks are glad to loan on satisfactory securities, at 5a6 per cent. This abundance of surplus capital will be further increased by the large amounts to be disbursed this week and the next, by various and insurance companies as dividends, and by the financial assets of States, Cities, Counties and Railroad Companies, as interest. Insurance Stocks and Bank Stocks are in the ascendancy, and claim a liberal premium from purchasers. On the other hand, Railroad Shares are dull and drooping.

The *Tribune* says:

Transactions at the Stock Board grow "smaller by degrees," if not "beautifully less," and there seems to be good cause for the unmitigated dullness in this interesting but wretched, which is not only the offspring of means enough to dabble in stocks out of the city, but tends to indispose everybody to active business operations, whether stocks or merchandize.

We append our usual market report and money article:

Our anticipations of an improvement in the produce market during the past week, have not been fully realized, the market for the most part has been unsettled and very dull; like last week, however to-day an improvement is visible, p ices having become more settled, though somewhat lower on Spring wheat than at the date of our last review. In the early part of the week the New York market was very dull, and a decline of 2c to 3c on common grades of wheat took place. This rather depressed our market, which was just then looking up. Since Tuesday no material change has been reported in the N. Y. market, but a continued dullness has existed there. In our market a slight decline from the closing rates of last week was established, and to-day the market exhibits considerable firmness, without however any change in prices. A great deal of damaged wheat has come in, considerable of which is yet on the market. Most of this latter has sold at prices ranging from 50 to 60½c. The damage was caused by "sweating," in consequence of the extreme heat of the weather. In the wheat market during the past week, transactions have not been so numerous, tho the prices throughout have been been very nearly equal to last week's. Flour has remained quiet, with very few sales except to supply home consumption. Oats have declined 1 to 2c, in consequence of some shipping buyers having withdrawn from the market, and the receipts being unusually heavy. Oats have not declined in the Eastern markets. In other grain there is no change to speak of. An active competition amongst wool buyers, and some Eastern manufacturers being in the market, had the effect of running up prices from 8 to 4c in the middle of the week, but during the past two days we have noticed a subsiding of the excitement, and to-day prices are about down to last week's quotations. We quote this week:

WHEAT—Market moderately active to-day at 74a72c for extra club, and 67a69 for No. 1. The market has not been very active during the week, though good samples have for the most part found ready sale at fair prices, particularly toward the end of the week. The principal sales of No. 1 have been made at 68c, though some choice lots brought a higher figure. The bulk of the wheat which arrived during the week was of this quality. Considerable damp wheat has also come in and sold at prices ranging from 50 to 62c. Winter wheat has not particularly changed; white has ranged from 80 to 85c from ordinary to choice extra, and red 70a76c. The market from day to day, have ranged throughout the week about as follows:

On Monday the market was rather inactive, buyers hesitating somewhat, in coming up to the views of the sellers. The following were the sales: 930 bags choice club at 75 cts, 1100 bags ordinary extra at 72 cts, 1450 bags good No 1 at 72 cts 80 bags do at 71 cts, 500 bags do at 70 cts; 100 bags damp No. at 68 cts and 450 inferior No. 1 damp at 65 c—200 bags good white winter at 85 cts, and 90 bags ordinary at 80 cts—Red winter quoted at 72 a 73 cts.

Buyers were offering 2 to 3c less on Tuesday, on account of a decline N. Y. market. Among the sales, which were light, were the following: 133 bags choice extra at 74c; 425 good do at 73c; 637 bags choice No. 1 at 72c; 500 bags good do at 70.; 150 bags extra white winter at 85c; 50 bags do at 80c, and 71 bags ordinary do at 68c. Red winter nominal at 73a80c.

On Wednesday the market was dull and lower, and sales very limited.

On Thursday prices became more settled, and an improvement was visible in the market—that is, dealers were operating more freely, though rates, if anything, were a shade lower. Sales of 140 bags choice club to mill at 73c, 170 bags choice club at 72c, 600 bags good do at 71c, 2,800 bags fair extra at 7 c, 1,000 bags choice No 1 at 69c, and 1,000 bags good do a 68c. 870 bags damp at 62½c, 142 bags do at 56c. Winter wheat remains without change; sales of 250 bags choice white winter at 85c, 122 do at 87½c, 100 bags air do at 83c; 100 bags red winter at 75c, and 100 bags do inferior quality at 71c.

The market was still more active on Friday and prices about the same. The following were the principal sales: 400 bags very extra club at 72c; 800 bags do at 71c; 1,050 bags fair extra at 70c; 400 bs a choice dry No. 1 at same price; 9 0 bags good No. 1 at 69c; 200 bags do at 68½c; 6,900 bags do at 68c; 25 bags ordinary No. 1 at 67c; 600 bags common at 65c; 500 bags do at 62½c; 300 bags do at 62c; 500 bags poor at 60c, and 70 bags damp at 56c. There is considerable damp wheat coming forward, and it meets very slow sale at 50a56c. Most of what was sold to-day, termed 'common,' has been more or less damaged by dampness. Winter wheat quiet and little on the market. No note sale of 820 bags choice white at 83c.

To-day we note no change in the market. Transactions are scarcely so numerous as yesterday, but prices are unchanged.

FLOUR—The sales of flour during the week have been very trifling, and generally at last week's prices. We note sales of 100 bbls "Gothic Mills" spring extra at $8.75 delivered; 100 bbls "Cambridge Mills" do at $8,63; 24 bbls "Fulton Mills" spring extra at $8,55 delivered, and 24 bbls "Gothic Mills" spring extra at $8,75 delivered, and 24 bbls "Dayton Mills" spring extra at $8,50 delivered. City brands quoted at $4,25a5,10 for best qualities to supply retail trade.

FREIGHTS—Have not been very active, and are not materially changed since last week. We note the following charters: Sch. G. W. Holt, wheat and flour to Buffalo at 4 and 20c; sch. Ironsides, wheat to same port at 4c; prop Mayflower, wheat to Tonawanda at 5c; prop. Milwaukee flour to Buffalo at 20c; sch W H Stevens, wheat to Buffalo at 4½c; sch Ellen Williams, oats to Buffalo at 3 c; sch A Scott, wheat to Oswego at 8c. To-day vessel owners are a little firmer, and 5c asked for wheat to Buffalo. The Sch. McNair loads with wheat for Oswego at 8c, and the Lavid Todd takes a cargo of oats to Buffalo at 3½c.

OATS—Have been brisk all the week and selling at 31a 32c up to yesterday, when a decline of 1a2c took place, in consequence of the withdrawal from the market of some shipping buyers. But 30c were offered to-day to store. Receipts for the week are very large, and shipments upward of 24,000 bus.

BARLEY—Tters have been but few sales of barley thro the week at prices ranging from 35 to 40c.

RYE—In moderate demand at 50a51c. But few sales during thes week.

CORN—There is a moderate demand for corn to supply local consumption at 43a44c for dry shelled.

POTATOES—Still continue dull, and difficult to dispose of at 20a25 from ordinary to good samples.

EGGS—Are very plenty and selling at 6a7c by the bbl slowly.

BUTTER—The market has been abundantly supplied with excellent fresh butter, which has not brought over 9a10c per lb.

HIDES—Have been in active request all through the week at last week's prices. Green 5½a6; green salted 7a 7½c; dry 13a14½c for common to prime trimmed; salted calf 10½a11c.

BEEF PELTS—Heavy wool pelts $1a1,87; sheared 65c, and lamb skins 80a85c.

WOOL—Has fluctuated somewhat during the week. An active competition amongst buyers caused an advance in prices, which however soon receded, and we are now at last week's quotations. Considerable has arrived both by Railroad and team. No advance has been reported in the N. Y. market since last week, so that the advance here is purely a home movement. The principal dealers here have not gone beyond their former prices, and those who have been operating during the past few days are mostly outside buyers. To-day but 30c were offered for the best quality, and we heard of no sales outside of these figures. The following are the present market quotations:

| | |
|---|---|
| Quarter to half blood | 2 to 25c. |
| Half to three quarters | 25 to 28c. |
| Three-quarter to full | 28 to 3 0. |

HAY—The market has been well supplied with good timothy at $7 to $10 per ton.

WHISKEY—19c by the bbl. Market well supplied.

ALCOHOL—95 per cent, 45c.

OATS—Bleached winter whale 90c, No. 1 hard 90c; limseed 75c.

WHITE LEAD—"Pure" $8,50 per ton, second do $8, N. J. Zinc $8 per ton.

SALT—Selling at $1,50 per bbl on the dock, and $1,62a 1,65 delivered at Depots.

CHEESE—Hamburg 8a10c.

CATTLE—But few cattle have been in the market during the week, and these have be n quickly taken at last week's prices generally. Messrs. LATTON & PLANKINTON of the Bull's Head Cattle Market, quote:

PROVISIONS—But little doing in provisions during the past week and prices are rather lower. We quote mess beef $9 per bbl; mess pork $16a17 light to heavy; prime mess $18,00; sugar cured hams 9a10c; and lard 10½a11c per lb

Extra cattle $3,50; medium $3; second quality $2,75 Sheep wanted, and fat sheep would bring $3,50 per hundred, live weight. Hogs, very slow of sale at $4,25 to $4,50 per hundred, live weight, by the single hog.

GROCERIES—Sugars have advanced ½c on the bbd in New York. Prices here remain as noted last week.

THE LUMBER TRADE.

The lumber business continues moderately active, with comparatively small receipts and a steady retail demand. Dealers, however, (as is always the case at this season of the year,) anticipate a falling off in demand for the next two months, in consequence of the attention of farmers being engaged in harvest operations. There has been a slightly increased demand for cargoes of lumber, though pr ces have not advanced. Among the sa es we note:

Cargo of Juniata Patton, Oconto, at $6,50 for merchantable, and $4 for culls.

Cargo of North Star, White Lake, $6 for merchantable and $3 for culls.

Cargo of Brig Preble, Oconto, at $6 for merchantable and $4 for culls.

Messrs. H wortox, Brown & Co., Lumber Dealers, corner of Third and Tamarack streets, furnish us the following retail prices:

Clear plank $30, 2d do $25, clear boards $30, 2d do $25, 3d do $18, clear flooring 2½, 2d do $18, common do $16, common boards, joist, scantling, fencing, timber and plank, $7, clear siding $18, common do $10, warranted shingles $2 75, lath $2 50 to $3, cedar posts 4 8 per hundred.

MONEY MARKET.

BANKING AND EXCHANGE OFFICE OF BRIGG BROTHERS, } No. 166 EAST WATER ST., MIL., July 3, '58. }

The hot weather of the season has had its usual depressing effect on monetary transactions, and but little inclination is evinced, on the part of capitalists, to operate. At the same time money is accumulating, and parties who are able at present proper securities, find no difficulty in obtaining call or short time loans, on favorable terms. There is also an increasing willingness to invest in mortgages maturing in from one to two years —but a wide margin is demanded by lenders, and the character of the security has to undergo a rigid scrutiny. On the whole, we are satisfied that we see the beginning of a real improvement, and we hail its advent with no little gratification.

The Banks are about making up their regular statements of their condition, which we hazard nothing in asserting, will show a soundness for the present, and a promise for the future, which no man would have dared to predict six months ago. We shall take occasion at an early day, to make a comparative exhibit, based on their reports, which will prove beyond that we have, in our State and City, fundamental elements of prosperity, which can not fail us. And we renew our assurance to those who have money to use, that they may find with us a safe and profitable investment for it.

Exchange is plenty, but without reduction in rates—
